An inverse slide

Often used for transitions

• first point

- first point
- second point

- first point
- second point
- third point

- first point
- second point
- third point

You can emphasize text with color:

- Blue
- Green
- Pink
- Red
- Warm Yellow

- first point
- second point
- third point

You can emphasize text with color:

- Blue
- Green
- Pink
- Red
- Warm Yellow

And make it **bold** or *italicized* using Markdown:

- Bold or italicized
- **Bold** or *italicized*
- Bold or italicized
- Bold or italicized
- Bold or italicized

Line highlighting

An example of using the trailing comment #<< to highlight lines:

Code

```
```{r tidy=FALSE}
library(ggplot2)
ggplot(mtcars) +
 aes(mpg, disp) +
 geom_point() + #<<
 geom_smooth() #<<</pre>
```

### **Output**

```
library(ggplot2)
ggplot(mtcars) +
 aes(mpg, disp) +
 geom_point() +
 geom_smooth()
```
