Tables and quotes

Table

Sepal.Length	Sepal.Width	Petal.Length	Petal.Width	Species
5.1	3.5	1.4	0.2	setosa
4.9	3.0	1.4	0.2	setosa
4.7	3.2	1.3	0.2	setosa
4.6	3.1	1.5	0.2	setosa
5.0	3.6	1.4	0.2	setosa
5.4	3.9	1.7	0.4	setosa

Quote

> This is what a quote looks like.

Line highlighting

An example of using the trailing comment `#<<` to highlight lines:

Code

```
```{r tidy=FALSE}
library(ggplot2)
ggplot(mtcars) +
  aes(mpg, disp) +
  geom_point() +   #<<
  geom_smooth()    #<<
```
```

Output

```
library(ggplot2)
ggplot(mtcars) +
  aes(mpg, disp) +
  geom_point() +
  geom_smooth()
```

A note about logos

NHS Organisation logo in title slide

The `.title-slide` class in `nhsr.css` looks for a title slide logo within an `img` folder located within the same directory as the xaringan `.Rmd` file.

NHS logo on every slide

The NHS logo can be incorporated on every slide using the `use_logo()` function in Garrick Aden-Buie's xaringanExtra package, or by following the guidance in his blog post xaringan Tip: Add A Logo to All of Your Slides.

For a more seamless logo experience, you can find this theme and high-resolution NHS logo files built into the `nhsrtheme` package developed by Tom Jemmett.

The **nhsr theme** was designed by Silvia Canelon for, and with feedback from, the NHS-R Community, following the NHS identity guidelines.
